this chapter, the Secretary, where appropriate, shall require applicants to demonstrate how they will address, in whole or in part, the needs of infants, toddlers, children, and youth with disabilities from minority backgrounds.

**(c) Transitions facing children with disabilities during years in school**

In awarding grants, contracts, or cooperative agreements under subchapters III through VII of this chapter the Secretary, where appropriate, may require applicants to address the various transitions that a child with a disability may face throughout such child's years in school, including—

(1) the transition from medical care to special education for those children with disabilities, including chronic health impairments, who may require individualized health-related services to enable such children to participate in, or benefit from, special education;

(2) the transition between residential placement and community-based special education services; and

(3) the transition between a separate educational placement and the regular classroom setting.

**(d) Program evaluations**

The Secretary shall conduct directly, or by contract or cooperative agreement with appropriate entities, independent evaluations of the programs authorized under section 1418 of this title and under subchapters III through VII of this chapter, and may for such purpose use funds appropriated to carry out such provisions. The findings of the evaluators shall be utilized in the planning process under subsection (a) of this section for the purpose of improving the programs. The evaluations shall determine the degree to which the program is being conducted consistent with the program plan and meeting its goals and objectives. The Secretary shall submit to the appropriate committees of the Congress the results of the evaluations required by this subsection.

**(e) Report on program plans and evaluations**

**(g) Dissemination of reports to appropriate networks**

The Secretary shall, where appropriate, require recipients of all grants, contracts, and cooperative agreements under subchapters III through VII of this chapter to prepare reports describing their procedures, findings, and other relevant information in a form that will maximize the dissemination and use of such proce-

dures, findings, and information. The Secretary shall require their delivery, as appropriate, to the Regional and Federal Resource Centers, the Clearinghouses, and the Technical Assistance to Parents Programs (TAPP) assisted under subchapters III and IV of this chapter, as well as the National Diffusion Network, the ERIC Clearinghouse on the Handicapped and Gifted, and the Child and Adolescent Service Systems Program (CASSP) under the National Institute of Mental Health, appropriate parent and professional organizations, organizations representing individuals with disabilities, and such other networks as the Secretary may determine to be appropriate.

**(h) Evaluation panels**

(1) The Secretary shall convene, in accordance with paragraph (2), panels of experts who are competent, by virtue of their training or experience, to evaluate proposals under section 1418 of this title and subchapters III through VII of this chapter.

(2) Panels under paragraph (1) shall be composed of individuals with disabilities, parents of such individuals, individuals from the fields of special education, related services, and other relevant disciplines.

(3) The Secretary shall convene panels under paragraph (1) for any application that includes a total funding request exceeding \$60,000 and may convene or otherwise appoint panels for applications that include funding requests that are less than such amount.

(4) Panels under paragraph (1) shall include a majority of non-Federal members. Such non-Federal members shall be provided travel and per diem not to exceed the rate provided to other educational consultants used by the Department of Education and shall be provided consultant fees at such a rate.

(5) The Secretary may use funds available under section 1418 of this title and subchapters III through VII of this chapter to pay expenses and fees of non-Federal members of the panels.

**(i) Site visits**

The Secretary shall conduct at least 1 site visit for each grant, contract, and cooperative agreement receiving \$300,000 or more annually under subchapters III through VII of this chapter.

**(j) Discretionary program findings**

(1) With respect to the discretionary programs authorized by subchapters III through VII of this chapter, the Congress finds as follows:

(A)(i) The Federal Government must be responsive to the growing needs of an increasingly more diverse society. A more equitable allocation of resources is essential for the Federal Government to meet its responsibility to provide an equal educational opportunity for all individuals.

(ii) America's racial profile is rapidly changing. While the rate of increase for white Americans is 3.2 percent, the rate of increase for racial and ethnic minorities is much higher: 38.6 percent for Hispanics, 14.6 percent for African-Americans, and 40.1 percent for Asians and other ethnic groups.

(iii) By the year 2000, this Nation will have 260,000,000 people, one of every three of whom

will be either African-American, Hispanic, or Asian-American.

(iv) Taken together as a group, it is a more frequent phenomenon for minorities to comprise the majority of public school students. Large city school populations are overwhelmingly minority, e.g., Miami, 71 percent; Philadelphia, 73 percent; Baltimore, 80 percent.

(v) Recruitment efforts within special education at the level of preservice, continuing education, and practice must focus on bringing larger numbers of minorities into the profession in order to provide appropriate practitioner knowledge, role models, and sufficient manpower to address the clearly changing demography of special education.

(vi) The limited English proficient population is the fastest growing in our Nation, and the growth is occurring in many parts of our Nation. In the Nation's 2 largest school districts, limited-English students make up almost half of all students initially entering school at the kindergarten level. Studies have documented apparent discrepancies in the levels of referral and placement of limited-English proficient children in special education. The Department of Education has found that services provided to limited-English proficient students often do not respond primarily to the pupil's academic needs. These trends pose special challenges for special education in the referral, assessment, and services for our Nation's students from non-English language backgrounds.

(B)(i) Greater efforts are needed to prevent the intensification of problems connected with mislabeling and high dropout rates among minority children with disabilities.

(ii) More minority children continue to be served in special education than would be expected from the percentage of minority students in the general school population.

(iii) Poor African-American children are 3.5 times more likely to be identified by their teacher as mentally retarded than their white counterpart.

(iv) Although African-Americans represent 12 percent of elementary and secondary enrollments, they constitute 28 percent of total enrollments in special education.

(v) The drop out rate is 68 percent higher for minorities than for whites.

(vi) More than 50 percent of minority students in large cities drop out of school.

(C)(i) The opportunity for full participation in awards for grants and contracts; boards of organizations receiving funds under this chapter; and peer review panels; and training of professionals in the area of special education by minority individuals, organizations, and historically Black colleges and universities is essential if we are to obtain greater success in the education of minority children with disabilities.

(ii) In 1989, of the 661,000 college and university professors, 4.6 percent were African-American and 3.1 percent were Hispanic. Of the 3,600,000 teachers, prekindergarten through high school, 9.4 percent were African-American and 3.9 percent were Hispanic.

(iii) Students from minority groups comprise more than 50 percent of K-12 public

school enrollment in seven States yet minority enrollment in teacher training programs is less than 15 percent in all but six States.

(iv) As the number of African-American and Hispanic students in special education increases, the number of minority teachers and related service personnel produced in our colleges and universities continues to decrease.

(v) Ten years ago, 12.5 percent of the United States teaching force in public elementary and secondary schools were members of a minority group. Minorities comprised 21.3 percent of the national population at that time and were clearly underrepresented then among employed teachers. Today, the elementary and secondary teaching force is 3 to 5 percent minority, while one-third of the students in public schools are minority children.

(vi) As recently as 1984-85, Historically Black Colleges and Universities (HBCUs) supplied nearly half of the African-American teachers in the Nation. However, in 1988, HBCUs received only 2 percent of the discretionary funds for special education and related services personnel training.

(vii) While African-American students constitute 28 percent of total enrollment in special education, only 11.2 percent of individuals enrolled in preservice training programs for special education are African-American.

(viii) In 1986-87, of the degrees conferred in education at the B.A., M.A., and Ph.D levels, only 6, 8, and 8 percent, respectively, were awarded to African-American or Hispanic students.

(D) Minorities and underserved persons are socially disadvantaged because of the lack of opportunities in training and educational programs, undergirded by the practices in the private sector that impede their full participation in the mainstream of society.

(2) The Congress further finds that these conditions can be greatly improved by providing opportunities for the full participation of minorities through the implementation of the following recommendations:

(A) Implementation of a policy to mobilize the Nation's resources to prepare minorities for careers in special education and related services.

(B) This policy should focus on—

(i) the recruitment of minorities into teaching; and

(ii) financially assisting HBCUs and other institutions of higher education (whose minority student enrollment is at least 25 percent) to prepare students for special education and related service careers.

(C)(i) The Secretary shall develop a plan for providing outreach services to the entities described in clause (ii) in order to increase the participation of such entities in competitions for grants, contracts, and cooperative agreements under any of subchapters III through VII of this chapter.

(ii) The entities referred to in clause (i) are—

(I) Historically Black Colleges and Universities and other institutions of higher education whose minority student enrollment is at least 25 percent;

(II) eligible institutions as defined in section 1058 of this title;

(III) nonprofit and for-profit agencies at least 51 percent owned or controlled by one or more minority individuals; and

(IV) underrepresented populations.

(iii) For the purpose of implementing the plan required in clause (i), the Secretary shall, for each of the fiscal years 1991 through 1994, expend 1 percent of the funds appropriated for the fiscal year involved for carrying out subchapters III through VII of this chapter.

(3) The Secretary shall exercise his/her utmost authority, resourcefulness, and diligence to meet the requirements of this subsection.

(4) Not later than January 31 of each year, starting with fiscal year 1991, the Secretary shall submit to Congress a final report on the progress toward meeting the goals of this subsection during the preceding fiscal year. The report shall include—

(i) a full explanation of any progress toward meeting the goals of this subsection; and

(ii) a plan to meet the goals, if necessary.

### SUBCHAPTER II—ASSISTANCE FOR EDUCATION OF ALL CHILDREN WITH DISABILITIES

#### SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 927, 1407, 1422, 1423, 1424, 1441, 1476, 1477, 1478, 1479, 1482, 1491n, 2321, 2325, 4304, 7908, 8066 of this title; title 10 section 2164; title 29 sections 721, 2211, 2231, 2243; title 42 sections 290ff-1, 290ff-2, 1396b, 12511.

### § 1411. Entitlements and allocations

#### (a) Formula for determining maximum State entitlement

(1) Except as provided in paragraph (5), the maximum amount of the grant for which a State is entitled under this section for any fiscal year is—

(A) the sum of—

(i) the number of children with disabilities in the State, aged 6 through 21, who are receiving special education and related services, as determined under paragraph (3); and

(ii) if the State is eligible for a grant under section 1419 of this title, the number of such children in the State, aged 3 through 5; multiplied by

(B) 40 percent of the average per-pupil expenditure in public elementary and secondary schools in the United States.

(2) For the purpose of this section, the term “State” means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

(3) The number of children with disabilities receiving special education and related services in any fiscal year shall be equal to number of such children receiving special education and related services on December 1 of the fiscal year preceding the fiscal year for which the determination is made.

(4) For purposes of paragraph (1)(B), the term “average per pupil expenditure”, in the United States, means the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made (or, if satisfactory data for such year are not available at the time of computation, then during the most recent preceding fiscal year for which satisfactory data are available) of all local educational agencies in the United States (which, for purposes of this subsection, means the fifty States and the District of Columbia), as the case may be, plus any direct expenditures by the State for operation of such agencies (without regard to the source of funds from which either of such expenditures are made), divided by the aggregate number of children in average daily attendance to whom such agencies provided free public education during such preceding year.

(5)(A) In determining the allotment of each State under paragraph (1), the Secretary may not count—

(i) children with disabilities aged three to seventeen, inclusive, in such State under paragraph (1)(A) to the extent the number of such children is greater than 12 percent of the number of all children aged three to seventeen, inclusive, in such State, or the combined percentage of such children counted by the Secretary for the purpose of making fiscal year 1994 allocations under this section and under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding October 20, 1994), whichever is greater, if the State serves all children with disabilities aged three to five, inclusive, in the State pursuant to State law or practice or the order of any court, and

(ii) children with disabilities aged five to seventeen, inclusive, in such State under paragraph (1)(A) to the extent the number of such children is greater than 12 percent of the number of all children aged five to seventeen, inclusive, in such State, or the combined percentage of such children counted by the Secretary for the purpose of making fiscal year 1994 allocations under this section and under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding October 20, 1994), whichever is greater, if the State does not serve all children with disabilities aged three to five, inclusive, in the State pursuant to State law or practice or the order of any court.

(B) For purposes of subparagraph (A), the number of children aged three to seventeen, inclusive, in any State shall be determined by the Secretary on the basis of the most recent satisfactory data available to the Secretary.

**(b) Minimum amount of funds to States for fiscal years 1995 to 1999**

(1) Notwithstanding subsections (a) and (g) of this section, no State shall receive an amount under this section for any of the fiscal years 1995 through 1999 that is less than the sum of the amount such State received for fiscal year 1994 under—

(A) this section; and

(B) subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on October 20, 1994) for children with disabilities aged 3 through 21.

(2) If, for fiscal year 1998 or 1999, the number of children determined under subsection (a)(3) of this section for any State is less than the total number of children with disabilities, aged 3 through 21, counted for that State's fiscal year 1994 grants under this section and under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on October 20, 1994), then the amount determined under paragraph (1) for that State shall be reduced by the same percentage by which the number of those children so declined.

(3)(A) If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under paragraphs (1) and (2) for such year, the Secretary shall ratably reduce the allocations to such States for such year.

(B) If additional funds become available for making payments under paragraphs (1) and (2) for such fiscal year, allocations that were reduced under subparagraph (A) shall be increased on the same basis as such allocations were reduced.

**(c) Distribution and use of grant funds by States for fiscal years ending September 30, 1979, and thereafter**

(1) Of the funds received under subsection (a) of this section by any State for any fiscal year—

(A) a State may use not more than 25 percent of such funds in accordance with paragraph (2); and

(B) except as provided in paragraph (4), the State shall distribute at least 75 percent of such funds to local educational agencies and intermediate educational units, in accordance with subsection (d) of this section, for use in accordance with priorities established under section 1412(3) of this title.

(2)(A) From the funds that any State may use under paragraph (1)(A) for any fiscal year, the State—

(i) may use 5 percent of the funds received under this section or \$450,000, whichever is greater, for administrative costs related to carrying out sections 1412 and 1413 of this title; and

(ii) shall use the remainder—

(I) to provide support services and direct services, subject to subparagraph (B), in accordance with priorities established under section 1412(3) of this title; and

(II) for the administrative costs of monitoring and complaint investigation, but

only to the extent that such costs exceed the costs of administration incurred during fiscal year 1985.

(B) The amount expended by any State from the funds available to such State under paragraph (1)(A) in any fiscal year for the provision of support services or for the provision of direct services shall be matched on a program basis by such State, from funds other than Federal funds, for the provision of support services or for the provision of direct services for the fiscal year involved.

(3) The provisions of section 1413(a)(9) of this title shall not apply with respect to amounts available for use by any State under paragraph (2).

(4)(A) No funds shall be distributed by any State under this subsection in any fiscal year to any local educational agency or intermediate educational unit in such State if—

(i) such local educational agency or intermediate educational unit is entitled, under subsection (d) of this section, to less than \$7,500 for such fiscal year; or

(ii) such local educational agency or intermediate educational unit has not submitted an application for such funds which meets the requirements of section 1414 of this title.

(B) Whenever the provisions of subparagraph (A) apply, the State involved shall use such funds to assure the provision of a free appropriate education to children with disabilities residing in the area served by such local educational agency or such intermediate educational unit. The provisions of paragraph (2)(B) shall not apply to the use of such funds.

**(d) Allocation of funds within States to local educational agencies and intermediate educational units**

(1) From the total amount of funds available for any fiscal year under subsection (c)(1)(B) of this section, the State shall provide to each local educational agency or intermediate educational unit an amount that bears the same ratio to such total amount as the number of children, aged 3 through 21, determined under subsection (a)(3) of this section for such agency or unit bears to the total number of such children determined for all such agencies and units that apply for such funds.

(2)(A) To the extent necessary, the State—

(i) shall use funds available under subsection (c)(2)(A)(ii) of this section to ensure that each State agency that received funds for fiscal year 1994 under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding October 20, 1994) receives, from the sum of such funds and funds provided under paragraph (1), an amount equal to—

(I) the number of children, aged 6 through 21, determined under subsection (a)(3) of this section for such agency; multiplied by

(II) the per-child amount provided under such subpart for fiscal year 1994; and

(ii) may use such funds to ensure that each local educational agency that received for fiscal year 1994 under such subpart for children

who had transferred from a State-owned, State-operated, or State-supported school or program assisted under such subpart receives, from the sum of such funds and funds provided under paragraph (1), an amount for each such child, aged 3 through 21, determined under subsection (a)(3) of this section for such agency, equal to the per-child amount the agency received under such subpart for fiscal year 1994.

(B) For the purpose of subparagraph (A), the number of children determined under subsection (a)(3) of this section for any State agency or local educational agency shall not exceed the number of children aged 3 through 21 for whom such agency received funds under such subpart for such fiscal year.

**(e) Territories and possessions**

(1) The jurisdictions to which this subsection applies are Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and Palau (until the Compact of Free Association with the Government of Palau takes effect).

The tribe or tribal organization is encouraged to involve Indian parents in the development and implementation of these activities. The above entities shall, as appropriate, make referrals to local, State, or Federal entities for the provision of services or further diagnosis.

(E) To be eligible to receive a grant pursuant to subparagraph (A), the tribe or tribal organization shall make a biennial report to the Secretary of the Interior of activities undertaken under this paragraph, including the number of contracts and cooperative agreements entered into, the number of children contacted and receiving services for each year and the estimated number of children needing services during the 2 years following the one in which the report is made. Such plan shall provide for the coordination of services benefiting these children from whatever source, including tribes, the Indian Health Service, other BIA divisions, and other Federal agencies. In developing such a plan, the Secretary of the Interior shall consult with all interested and involved parties. It shall be based upon the needs of the children and the system best suited for meeting those needs, and may involve the establishment of cooperative agreements between the BIA, other Federal agencies, and other entities. (B) If additional funds become available for making such payments for any fiscal year, such reduced amounts shall be increased on the same basis as such payments were reduced.

(C) all children residing in the State who are disabled, regardless of the severity of their disability, and who are in need of special education and related services are identified, located, and evaluated, and that a practical method is developed and implemented to determine which children are currently receiving needed special education and related services and which children are not currently receiving needed special education and related services;

(E) any amendment to the plan submitted by the State required by this section shall be available to parents, guardians, and other members of the general public at least thirty days prior to the date of submission of the amendment to the Secretary.

(3) The State has established priorities for providing a free appropriate public education

Such materials or procedures shall be provided and administered in the child's native language or mode of communication, unless it clearly is not feasible to do so, and no single procedure shall be the sole criterion for determining an appropriate educational program for a child.

(6) The State educational agency shall be responsible for assuring that the requirements of this subchapter are carried out and that all educational programs for children with disabilities within the State, including all such programs administered by any other State or local agency, will be under the general supervision of the persons responsible for educational programs for children with disabilities in the State educational agency and shall meet education standards of the State educational agency. A local educational agency or an intermediate educational unit which desires to receive payments under section 1411(d) of this title for any fiscal year shall submit an application to the appropriate State educational agency. Such application shall—

(1) provide satisfactory assurance that payments under this subchapter will be used for excess costs directly attributable to programs which—

(A) provide that all children residing within the jurisdiction of the local educational agency or the intermediate educational unit who are disabled, regardless of the severity of their disability, and are in need of special education and related services will be identified, located, and evaluated, and provide for the inclusion of a practical method of determining which children are currently receiving needed special education and related services and which children are not currently receiving such education and services;

(B) establish policies and procedures in accordance with detailed criteria prescribed under section 1417(c) of this title;

(C) establish a goal of providing full educational opportunities to all children with disabilities, including—

(i) procedures for the implementation and use of the comprehensive system of personnel development established by the State educational agency under section 1413(a)(3) of this title;

(ii) the provision of, and the establishment of priorities for providing, a free appropriate public education to all children with disabilities, first with respect to children with disabilities who are not receiving an education, and second with respect to children with disabilities, within each disability, with the most severe disabilities who are receiving an inadequate education;

(iii) the participation and consultation of the parents or guardian of such children; and

(iv) to the maximum extent practicable and consistent with the provisions of section 1412(5)(B) of this title, the provision of special services to enable such children to participate in regular educational programs;

(D) establish a detailed timetable for accomplishing the goal described in subclause (C); and

(E) provide a description of the kind and number of facilities, personnel, and services necessary to meet the goal described in subclause (C);

(2) provide satisfactory assurance that—

(A) the control of funds provided under this subchapter, and title to property derived from such funds, shall be in a public agency for the uses and purposes provided in this subchapter, and that a public agency will administer such funds and property;

(B) Federal funds expended by local educational agencies and intermediate educational units for programs under this subchapter—

(i) shall be used to pay only the excess costs directly attributable to the education of children with disabilities; and

(ii) shall be used to supplement and, to the extent practicable, increase the level of State and local funds expended for the education of children with disabilities, and in no case to supplant such State and local funds; and

(C) State and local funds will be used in the jurisdiction of the local educational agency or intermediate educational unit to provide services in program areas that, taken as a whole, are at least comparable to services being provided in areas of such jurisdiction that are not receiving funds under this subchapter;

(3) provide for—

(A) furnishing such information (which, in the case of reports relating to performance, is in accordance with specific performance criteria related to program objectives), as may be necessary to enable the State educational agency to perform its duties under this subchapter, including information relating to the educational achievement of children with disabilities participating in programs carried out under this subchapter; and

(B) keeping such records, and affording such access to such records, as the State educational agency may find necessary to assure the correctness and verification of

such information furnished under subparagraph (A);

(4) provide for making the application and all pertinent documents related to such application available to parents, guardians, and other members of the general public, and provide that all evaluations and reports required under clause (3) shall be public information;

(5) provide assurances that the local educational agency or intermediate educational unit will establish or revise, whichever is appropriate, an individualized education program for each child with a disability (or, if consistent with State policy and at the discretion of the local educational agency or intermediate educational unit, and with the concurrence of the parents or guardian, an individualized family service plan described in section 1477(d) of this title for each child with a disability aged 3 to 5, inclusive) at the beginning of each school year and will then review and, if appropriate, revise, its provisions periodically, but not less than annually;

(6) provide satisfactory assurance that policies and programs established and administered by the local educational agency or intermediate educational unit shall be consistent with the provisions of paragraph (1) through paragraph (7) of section 1412 and section 1413(a) of this title; and

(7) provide satisfactory assurance that the local educational agency or intermediate educational unit will establish and maintain procedural safeguards in accordance with the provisions of sections 1412(5)(B), 1412(5)(C), and 1415 of this title.

**(b) Approval by State educational agencies of applications submitted by local educational agencies or intermediate educational units; notice and hearing**

(1) A State educational agency shall approve any application submitted by a local educational agency or an intermediate educational unit under subsection (a) of this section if the State educational agency determines that such application meets the requirements of subsection (a) of this section, except that no such application may be approved until the State plan submitted by such State educational agency under subsection (a) of this section is approved by the Secretary under section 1413(c) of this title. A State educational agency shall disapprove any application submitted by a local educational agency or an intermediate educational unit under subsection (a) of this section if the State educational agency determines that such application does not meet the requirements of subsection (a) of this section.

(2)(A) Whenever a State educational agency, after reasonable notice and opportunity for a hearing, finds that a local educational agency or an intermediate educational unit, in the administration of an application approved by the State educational agency under paragraph (1), has failed to comply with any requirement set forth in such application, the State educational agency, after giving appropriate notice to the local educational agency or the intermediate educational unit, shall—

(i) make no further payments to such local educational agency or such intermediate edu-

ational unit under section 1420 of this title until the State educational agency is satisfied that there is no longer any failure to comply with the requirement involved; or

(ii) take such finding into account in its review of any application made by such local educational agency or such intermediate educational unit under subsection (a) of this section.

(B) The provisions of the last sentence of section 1416(a) of this title shall apply to any local educational agency or any intermediate educational unit receiving any notification from a State educational agency under this paragraph.

(3) In carrying out its functions under paragraph (1), each State educational agency shall consider any decision made pursuant to a hearing held under section 1415 of this title which is adverse to the local educational agency or intermediate educational unit involved in such decision.

**(c) Consolidated applications**

(1) A State educational agency may, for purposes of the consideration and approval of applications under this section, require local educational agencies to submit a consolidated application for payments if such State educational agency determines that any individual application submitted by any such local educational agency will be disapproved because such local educational agency is ineligible to receive payments because of the application of section 1411(c)(4)(A)(i) of this title or such local educational agency would be unable to establish and maintain programs of sufficient size and scope to effectively meet the educational needs of children with disabilities.

(2)(A) In any case in which a consolidated application of local educational agencies is approved by a State educational agency under paragraph (1), the payments which such local educational agencies may receive shall be equal to the sum of payments to which each such local educational agency would be entitled under section 1411(d) of this title if an individual application of any such local educational agency had been approved.

(B) The State educational agency shall prescribe rules and regulations with respect to consolidated applications submitted under this subsection which are consistent with the provisions of paragraph (1) through paragraph (7) of section 1412 and section 1413(a) of this title and which provide participating local educational agencies with joint responsibilities for implementing programs receiving payments under this subchapter.

(C) In any case in which an intermediate educational unit is required pursuant to State law to carry out the provisions of this subchapter, the joint responsibilities given to local educational agencies under subparagraph (B) shall not apply to the administration and disbursement of any payments received by such intermediate educational unit. Such responsibilities shall be carried out exclusively by such intermediate educational unit.

**(d) Special education and related services provided directly by State educational agencies; regional or State centers**

Whenever a State educational agency determines that a local educational agency—

(1) is unable or unwilling to establish and maintain programs of free appropriate public education which meet the requirements established in subsection (a) of this section;

(2) is unable or unwilling to be consolidated with other local educational agencies in order to establish and maintain such programs; or

(3) has one or more children with disabilities who can best be served by a regional or State center designed to meet the needs of such children;

the State educational agency shall use the payments which would have been available to such local educational agency to provide special education and related services directly to children with disabilities residing in the area served by such local educational agency. The State educational agency may provide such education and services in such manner, and at such locations (including regional or State centers), as it considers appropriate, except that the manner in which such education and services are provided shall be consistent with the requirements of this subchapter.

**(e) Reallocation of funds**

Whenever a State educational agency determines that a local educational agency is adequately providing a free appropriate public education to all children with disabilities residing in the area served by such agency with State and local funds otherwise available to such agency, the State educational agency may reallocate funds (or such portion of those funds as may not be required to provide such education and services) made available to such agency, pursuant to section 1411(d) of this title, to such other local educational agencies within the State as are not adequately providing special education and related services to all children with disabilities residing in the areas served by such other local educational agencies.

**(f) Programs using State or local funds**

Notwithstanding the provisions of subsection (a)(2)(B)(ii) of this section, any local educational agency which is required to carry out any program for the education of children with disabilities pursuant to a State law shall be entitled to receive payments under section 1411(d) of this title for use in carrying out such program, except that such payments may not be used to reduce the level of expenditures for such program made by such local educational agency from State or local funds below the level of such expenditures for the fiscal year prior to the fiscal year for which such local educational agency seeks such payments.

### § 1415. Procedural safeguards

#### (a) Establishment and maintenance

Any State educational agency, any local educational agency, and any intermediate educational unit which receives assistance under this subchapter shall establish and maintain procedures in accordance with subsection (b) through subsection (e) of this section to assure that children with disabilities and their parents or guardians are guaranteed procedural safeguards with respect to the provision of free appropriate public education by such agencies and units.

#### (b) Required procedures; hearing

(1) The procedures required by this section shall include, but shall not be limited to—

(A) an opportunity for the parents or guardian of a child with a disability to examine all relevant records with respect to the identification, evaluation, and educational placement of the child, and the provision of a free appropriate public education to such child, and to obtain an independent educational evaluation of the child;

(B) procedures to protect the rights of the child whenever the parents or guardian of the child are not known, unavailable, or the child is a ward of the State, including the assignment of an individual (who shall not be an employee of the State educational agency, local educational agency, or intermediate educational unit involved in the education or care of the child) to act as a surrogate for the parents or guardian;

(C) written prior notice to the parents or guardian of the child whenever such agency or unit—

- (i) proposes to initiate or change, or
- (ii) refuses to initiate or change,

the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child;

(D) procedures designed to assure that the notice required by clause (C) fully informs the parents or guardian, in the parents' or guardian's native language, unless it clearly is not feasible to do so, of all procedures available pursuant to this section; and

(E) an opportunity to present complaints with respect to any matter relating to the identification, evaluation, or educational placement of the child, or the provision of a free appropriate public education to such child.

(2) Whenever a complaint has been received under paragraph (1) of this subsection, the par-

ents or guardian shall have an opportunity for an impartial due process hearing which shall be conducted by the State educational agency or by the local educational agency or intermediate educational unit, as determined by State law or by the State educational agency. No hearing conducted pursuant to the requirements of this paragraph shall be conducted by an employee of such agency or unit involved in the education or care of the child.

#### (c) Review of local decision by State educational agency

If the hearing required in paragraph (2) of subsection (b) of this section is conducted by a local educational agency or an intermediate educational unit, any party aggrieved by the findings and decision rendered in such a hearing may appeal to the State educational agency which shall conduct an impartial review of such hearing. The officer conducting such review shall make an independent decision upon completion of such review.

#### (d) Enumeration of rights accorded parties to hearings

Any party to any hearing conducted pursuant to subsections (b) and (c) of this section shall be accorded—

(1) the right to be accompanied and advised by counsel and by individuals with special knowledge or training with respect to the problems of children with disabilities,

(2) the right to present evidence and confront, cross-examine, and compel the attendance of witnesses,

(3) the right to a written or electronic verbatim record of such hearing, and

(4) the right to written findings of fact and decisions (which findings and decisions shall be made available to the public consistent with the requirements of section 1417(c) of this title and shall also be transmitted to the advisory panel established pursuant to section 1413(a)(12) of this title).

#### (e) Civil action; jurisdiction

(1) A decision made in a hearing conducted pursuant to paragraph (2) of subsection (b) of this section shall be final, except that any party involved in such hearing may appeal such decision under the provisions of subsection (c) and paragraph (2) of this subsection. A decision made under subsection (c) of this section shall be final, except that any party may bring an action under paragraph (2) of this subsection.

(2) Any party aggrieved by the findings and decision made under subsection (b) of this section who does not have the right to an appeal under subsection (c) of this section, and any party aggrieved by the findings and decision under subsection (c) of this section, shall have the right to bring a civil action with respect to the complaint presented pursuant to this section, which action may be brought in any State court of competent jurisdiction or in a district court of the United States without regard to the amount in controversy. In any action brought under this paragraph the court shall receive the records of the administrative proceedings, shall hear additional evidence at the request of a party, and, basing its decision on the preponderance of the

evidence, shall grant such relief as the court determines is appropriate.

(3)(A) Except as provided in subparagraph (B), during the pendency of any proceedings conducted pursuant to this section, unless the State or local educational agency and the parents or guardian otherwise agree, the child shall remain in the then current educational placement of such child, or, if applying for initial admission to a public school, shall, with the consent of the parents or guardian, be placed in the public school program until all such proceedings have been completed.

(B)(i) Except as provided in clause (iii), if the proceedings conducted pursuant to this section involve a child with a disability who is determined to have brought a weapon to school under the jurisdiction of such agency, then the child may be placed in an interim alternative educational setting, in accordance with State law, for not more than 45 days.

(ii) The interim alternative educational setting described in clause (i) shall be decided by the individuals described in section 1401(a)(20) of this title.

(iii) If a parent or guardian of a child described in clause (i) requests a due process hearing pursuant to paragraph (2) of subsection (b) of this section, then the child shall remain in the alternative educational setting described in such clause during the pendency of any proceedings conducted pursuant to this section, unless the parents and the local educational agency agree otherwise.

(iv) For the purpose of this section, the term “weapon” means a firearm as such term is defined in section 921 of title 18.

(4)(A) The district courts of the United States shall have jurisdiction of actions brought under this subsection without regard to the amount in controversy.

(B) In any action or proceeding brought under this subsection, the court, in its discretion, may award reasonable attorneys’ fees as part of the costs to the parents or guardian of a child or youth with a disability who is the prevailing party.

(C) For the purpose of this subsection, fees awarded under this subsection shall be based on rates prevailing in the community in which the action or proceeding arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded under this subsection.

(D) No award of attorneys’ fees and related costs may be made in any action or proceeding under this subsection for services performed subsequent to the time of a written offer of settlement to a parent or guardian, if—

(i) the offer is made within the time prescribed by Rule 68 of the Federal Rules of Civil Procedure or, in the case of an administrative proceeding, at any time more than ten days before the proceeding begins;

(ii) the offer is not accepted within ten days; and

(iii) the court or administrative officer finds that the relief finally obtained by the parents or guardian is not more favorable to the parents or guardian than the offer of settlement.

(E) Notwithstanding the provisions of subparagraph (D), an award of attorneys’ fees and relat-

ed costs may be made to a parent or guardian who is the prevailing party and who was substantially justified in rejecting the settlement offer.

(F) Whenever the court finds that—

(i) the parent or guardian, during the course of the action or proceeding, unreasonably protracted the final resolution of the controversy;

(ii) the amount of the attorneys’ fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably comparable skill, experience, and reputation; or

(iii) the time spent and legal services furnished were excessive considering the nature of the action or proceeding,

the court shall reduce, accordingly, the amount of the attorneys’ fees awarded under this subsection.

(G) The provisions of subparagraph (F) shall not apply in any action or proceeding if the court finds that the State or local educational agency unreasonably protracted the final resolution of the action or proceeding or there was a violation of this section.

#### **(f) Effect on other laws**

Nothing in this chapter shall be construed to restrict or limit the rights, procedures, and remedies available under the Constitution, title V of the Rehabilitation Act of 1973 [29 U.S.C. 790 et seq.], or other Federal statutes protecting the rights of children and youth with disabilities, except that before the filing of a civil action under such laws seeking relief that is also available under this subchapter, the procedures under subsections (b)(2) and (c) of this section shall be exhausted to the same extent as would be required had the action been brought under this subchapter.

### § 1416. Withholding of payments

#### (a) Failure to comply with this subchapter; limitations; public notice

Whenever the Secretary, after reasonable notice and opportunity for hearing to the State educational agency involved (and to any local educational agency or intermediate educational unit affected by any failure described in clause (2)), finds—

(1) that there has been a failure to comply substantially with any provision of section 1412 or section 1413 of this title, or

(2) that in the administration of the State plan there is a failure to comply with any provision of this subchapter or with any requirements set forth in the application of a local educational agency or intermediate educational unit approved by the State educational agency pursuant to the State plan, the Secretary—

(A) shall, after notifying the State educational agency, withhold any further payments to the State under this subchapter, and

(B) may, after notifying the State educational agency, withhold further payments to the State under the Federal programs specified in section 1413(a)(2) of this title within the Secretary’s jurisdiction, to the extent that funds under such programs are available for the provision of assistance for the education of children with disabilities.

If the Secretary withholds further payments under clause (A) or clause (B) the Secretary may determine that such withholding will be limited to programs or projects under the State plan, or portions thereof, affected by the failure, or that the State educational agency shall not make further payments under this subchapter to specified local educational agencies or intermediate educational units affected by the failure. Until the Secretary is satisfied that there is no longer any failure to comply with the provisions of this subchapter, as specified in clause (1) or clause (2), no further payments shall be made to the State under this subchapter or under the Federal programs specified in section 1413(a)(2) of this title within the Secretary’s jurisdiction to the extent that funds under such programs are available for the provision of assistance for the education of children with disabilities, or payments by the State educational agency under this subchapter shall be limited to local educational agencies and intermediate educational units whose actions did not cause or were not involved in the failure, as the case may be. The Secretary thereupon shall file in the court the record of the proceedings upon which the Secretary's action was based, as provided in section 2112 of title 28.

(2) The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(3) Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. ### § 1471. Congressional findings and policy

#### (a) Findings

The Congress finds that there is an urgent and substantial need—

(1) to enhance the development of infants and toddlers with disabilities and to minimize their potential for developmental delay,

(2) to reduce the educational costs to our society, including our Nation's schools, by minimizing the need for special education and related services after infants and toddlers with disabilities reach school age,

(3) to minimize the likelihood of institutionalization of individuals with disabilities and maximize the potential for their independent living in society,

(4) to enhance the capacity of families to meet the special needs of their infants and toddlers with disabilities, and

(5) to enhance the capacity of State and local agencies and service providers to identify, evaluate, and meet the needs of histori-

cally underrepresented populations, particularly minority, low-income, inner-city, and rural populations.

**(b) Policy**

It is therefore the policy of the United States to provide financial assistance to States—

(1) to develop and implement a statewide, comprehensive, coordinated, multidisciplinary, interagency program of early intervention services for infants and toddlers with disabilities and their families,

(2) to facilitate the coordination of payment for early intervention services from Federal, State, local, and private sources (including public and private insurance coverage), and

(3) to enhance their capacity to provide quality early intervention services and expand and improve existing early intervention services being provided to infants and toddlers with disabilities and their families.

may reserve 1 percent for payments to Guam, American Samoa, the Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, the Republic of Palau, and the Commonwealth of the Northern Mariana Islands in accordance with their respective needs.

#### (b) Payments to Secretary of the Interior for assistance to Indians

(1) The Secretary shall, subject to this subsection, make payments to the Secretary of the Interior to be distributed to tribes or tribal organizations (as defined under section 450b of title 25) or consortium of the above entities for the coordination of assistance in the provision of early intervention services by the States to infants and toddlers with disabilities and their families on reservations served by elementary and secondary schools for Indian children operated or funded by the Department of the Interior. The amount of such payment for any fiscal year shall be 1.25 percent of the aggregate of the amount available to all States under this part for that fiscal year.

(2) The Secretary of the Interior shall distribute the total amount of the 1.25 percent under paragraph (1) in the following manner:

(A) For the first fiscal year, each tribe or tribal organization shall receive an amount proportionate to the amount of weighted student units for special education programs for BIA operated or funded schools serving such reservation generated under the formula established under section 2008<sup>1</sup> of title 25, divided by the total number of such students in all BIA operated or funded schools.

(B) For each fiscal year thereafter, each tribe or tribal organization shall receive an amount based on the number of infants and toddlers residing on the reservation as determined annually divided by the total of such children served by all tribes or tribal organizations.

(3) To receive a payment under this paragraph, the tribe or tribal organization shall submit such figures to the Secretary of the Interior as are needed to determine the amounts to be allocated under paragraph (2).

(4) The funds received by a tribe or tribal organization shall be used to assist States in child find, screening, and other procedures for the early identification of Indian children aged 0-2, inclusive, and for parent training. Such funds may also be used to provide early intervention services in accordance with this subchapter. These activities may be carried out directly or through contracts or cooperative agreements with the BIA, local educational agencies, and other public or private nonprofit organizations. The tribe and tribal organization is encouraged to involve Indian parents in the development and implementation of these activities. The above entities shall, as appropriate, make referrals to local, State, or Federal entities for the provision of services or further diagnosis.

(5) To be eligible to receive a grant pursuant to paragraph (2), the tribe or tribal organization shall make a biennial report to the Secretary of the Interior of activities undertaken under this

<sup>1</sup> See References in Text note below.

subsection, including the number of contracts and cooperative agreements entered into, the number of children contacted and receiving services for each year, and the estimated number of children needing services during the 2 years following the one in which the report is made. The Secretary of the Interior shall include a summary of this information on a biennial basis to the Secretary of Education along with such other information as required under section 1411(f)(3)(D) of this title. The Secretary of Education may require any additional information from the Secretary of the Interior.

(6) None of the funds under this subsection can be used by the Secretary of the Interior for administrative purposes, including child count, and the provision of technical assistance.

**(c) States**

(1) Except as provided in paragraphs (3), (4), and (5) from the funds remaining for each fiscal year after the reservation and payments under subsections (a) and (b) of this section, the Secretary shall first allot to each State an amount that bears the same ratio to the amount of such remainder as the number of infants and toddlers in the State bears to the number of infants and toddlers in all States.

(2) For fiscal year 1995 only, the Secretary shall allot \$34,000,000 of the remaining funds described in paragraph (1) among the States in proportion to their relative numbers of infants and toddlers with disabilities who—

(A) are counted on December 1, 1994; and

(B) would have been eligible to be counted under section 1221(c)(1) of the Elementary and Secondary Education Act of 1965 (as such section was in effect on the day preceding October 20, 1994).

(3) Except as provided in paragraphs (4) and (5), no State shall receive an amount under this section for any fiscal year that is less than the greater of—

(A) one-half of one percent of the remaining amount described in paragraph (1), excluding any amounts allotted under paragraph (2); or

(B) \$500,000.

(4)(A) Except as provided in paragraph (5), no State shall receive an amount under this section for any of the fiscal years 1995 through 1999 that is less than the sum of the amount such State received for fiscal year 1994 under—

(i) this subchapter; and

(ii) subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in existence on the day preceding October 20, 1994) for children with disabilities from birth through age 2.

(B) If, for fiscal year 1998 or 1999, the number of infants and toddlers in any State, as determined under paragraph (1), is less than the number of infants and toddlers so determined for fiscal year 1994, the amount determined under subparagraph (A) for that State shall be reduced by the same percentage by which the number of those infants and toddlers so declined.

(5)(A) If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all States are eligible

to receive under this subsection for such year, the Secretary shall ratably reduce the allocations to such States for such year.

(B) If additional funds become available for making payments under this subsection for such fiscal year, allocations that were reduced under subparagraph (A) shall be increased on the same basis as such allocations were reduced.

(6) For the purpose of paragraph (1)—

(A) the terms “infants” and “toddlers” mean children from birth to age 2, inclusive, and

(B) the term “State” does not include the jurisdictions described in subsection (a) of this section.

**(d) Election by State not to receive allotment**

If any State elects not to receive its allotment under subsection (c)(1) of this section, the Secretary shall reallocate, among the remaining States, amounts from such State in accordance with such subsection.

**§ 1491. Short title**

EFFECTIVE DATE

Subchapter effective July 1, 1995, see section 3(a)(3)(A) of Pub. L. 103-382, set out as an Effective Date of 1994 Amendment note under section 1411 of this title.

**§ 1491a. Findings, purposes, and policy**

**(a) Findings**

The Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families are the greatest natural resource available to their children and are the major providers of support, care, and training of their children.

(3) Families of children with disabilities enrich the lives of all citizens through the contributions of such families to the economic, health, and social fabric of their community, State, and Nation.

(4) A growing number of families are searching for ways to empower themselves to raise their children with disabilities at home and in their communities. Supporting such families to enable them to care for their children with disabilities at home is efficient and can be cost-effective.

(5) Children, including children with disabilities, benefit from enduring family relationships in a nurturing home environment.

(6) Many families experience exceptionally high financial outlays and significant physical and emotional challenges in meeting the special needs of their children with disabilities.

(7) There are financial disincentives for families to care for their children with disabilities at home.

(8) Most families of children with disabilities do not have access to family-centered and family-directed services to support such families in their efforts to care for their children with disabilities at home.

(9) There is a need in each State for a comprehensive, coordinated, interagency system of family support for families of children with disabilities that is family-centered and family-directed, is easily accessible, avoids duplication, uses existing resources more efficiently, and prevents gaps in services to families in all areas of the State.

(10) The goals of the Nation properly include the goal of providing families of children with disabilities the family support necessary to accomplish the following:

(A) To support the family.

(B) To enable families of children with disabilities to nurture and enjoy their children at home.

(C) To enable families of children with disabilities to make informed choices and decisions regarding the nature of services, supports, and resources made available to such families.

#### (b) Purposes

The purposes of this subchapter are as follows:

(1) To provide financial assistance to the States to support systems change activities designed to assist each State to develop and implement, or expand and enhance, a family-centered and family-directed, culturally competent, community-centered, comprehensive, statewide system of family support for families of children with disabilities that is designed to—

(A) ensure the full participation, choice and control of families of children with disabilities in decisions related to the provision of such family support for their family;

(B) ensure the active involvement of families of children with disabilities in the planning, development, implementation, and evaluation of such a statewide system;

(C) increase the availability of, funding for, access to, and provision of family support for families of children with disabilities;

(D) promote training activities that are family-centered and family-directed and that enhance the ability of family members of children with disabilities to increase participation, choice, and control in the provision of family support for families of children with disabilities;

(E) increase and promote interagency coordination among State agencies, and between State agencies and private entities that are involved in carrying out activities under section 1491g of this title; and

(F) increase the awareness of laws, regulations, policies, practices, procedures, and organizational structures, which facilitate or impede the availability or provision of family support for families of children with disabilities.

(2) To enhance the ability of the Federal Government to—

(A) identify Federal policies that facilitate or impede family support for families of children with disabilities, and that are consistent with the principles in subsection (c) of this section;

(B) provide States with technical assistance and information relating to the provision of family support for families of children with disabilities;

(C) conduct an evaluation of the program of grants to States; and

(D) provide funding for model demonstration and innovation projects.

#### (c) Policy

It is the policy of the United States that all programs, projects, and activities receiving assistance under this subchapter shall be family-centered and family-directed and shall be carried out in a manner consistent with the following principles:

(1) Family support for families of children with disabilities must focus on the needs of the entire family.

(2) Families of children with disabilities should be supported in determining their needs and in making decisions concerning necessary, desirable, and appropriate services.

(3) Families should play decisionmaking roles in policies and programs that affect the lives of such families.

(4) Family needs change over time and family support for families of children with disabilities must offer options that are flexible and responsive to the unique needs and strengths and cultural values of individual families.

(5) Family support for families of children with disabilities is proactive and not solely in response to a crisis.

(6) Families must be supported in their efforts to promote the integration and inclusion of their children with disabilities into all aspects of community life.

(7) Family support for families of children with disabilities should promote the use of existing social networks, strengthen natural

sources of support, and help build connections to existing community resources and services.

(8) Youth with disabilities should be involved in decisionmaking about their own lives, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each such youth.

(9) Services and supports must be provided in a manner that demonstrates respect for individual dignity, personal responsibility, self-determination, personal preferences, and cultural differences of families.

**(d) Rule of construction**

Nothing in this subchapter shall be construed to prevent families from choosing an out-of-home placement for their children with disabilities, including institutional placement for such children.

(Pub. L. 91-230, title VI, §702, as added Pub. L. 103-382, title III, §315, Oct. 20, 1994, 108 Stat. 3937.)

**§ 1682. Federal administrative enforcement; report to Congressional committees**

Each Federal department and agency which is empowered to extend Federal financial assistance to any education program or activity, by way of grant, loan, or contract other than a contract of insurance or guaranty, is authorized and directed to effectuate the provisions of section 1681 of this title with respect to such program or activity by issuing rules, regulations, or orders of general applicability which shall be consistent with achievement of the objectives of the statute authorizing the financial assistance in connection with which the action is taken. No such rule, regulation, or order shall become effective unless and until approved by the President. Compliance with any requirement adopted pursuant to this section may be effected (1) by the termination of or refusal to grant or to continue assistance under such program or activity to any recipient as to whom there has been an express finding on the record, after opportunity for hearing, of a failure to comply with such requirement, but such termination or refusal shall be limited to the particular political entity, or part thereof, or other recipient as to whom such a finding has been made, and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found, or (2) by any other means authorized by law: *Provided, however,* That no such action shall be taken until the department or agency concerned has advised the appropriate person or persons of the failure to comply with the requirement and has determined that compliance cannot be secured by voluntary means. In the case of any action terminating, or refusing to grant or continue, assistance because of failure to comply with a requirement imposed pursuant to this section, the head of the Federal department or agency shall file with the committees of the House and Senate having legislative jurisdiction over the program or activity involved a full written report of the circumstances and the grounds for such action. No such action shall become effective until thirty days have elapsed after the filing of such report.

## SUBCHAPTER I—EQUAL EDUCATIONAL OPPORTUNITIES

## PART 1—POLICY AND PURPOSE

**§ 1701. Congressional declaration of policy****(a) Entitlement to equal educational opportunity; neighborhood as appropriate basis**

The Congress declares it to be the policy of the United States that—

- (1) all children enrolled in public schools are entitled to equal educational opportunity without regard to race, color, sex, or national origin; and

- (2) the neighborhood is the appropriate basis for determining public school assignments.

**(b) Purpose**

In order to carry out this policy, it is the purpose of this subchapter to specify appropriate remedies for the orderly removal of the vestiges of the dual school system.

(Pub. L. 93-380, title II, §202, Aug. 21, 1974, 88 Stat. 514.)

## EFFECTIVE DATE

Chapter effective on and after sixtieth day after Aug. 21, 1974, see section 2(c) of Pub. L. 93-380, set out as a note under section 1221-1 of this title.

## SHORT TITLE

Section 201 of title II of Pub. L. 93-380 provided that: "This title [enacting this chapter and section 1228 of this title and amending section 1608 of this title] may be cited as the 'Equal Educational Opportunities Act of 1974.'"

**§ 1702. Congressional findings****(a) Dual school systems as denial of equal protection; depletion of financial resources of local educational agencies; transportation of students; inadequacy of guidelines**

The Congress finds that—

(1) the maintenance of dual school systems in which students are assigned to schools solely on the basis of race, color, sex, or national origin denies to those students the equal protection of the laws guaranteed by the fourteenth amendment;

(2) for the purpose of abolishing dual school systems and eliminating the vestiges thereof, many local educational agencies have been required to reorganize their school systems, to reassign students, and to engage in the extensive transportation of students;

(3) the implementation of desegregation plans that require extensive student transportation has, in many cases, required local educational agencies to expend large amounts of funds, thereby depleting their financial resources available for the maintenance or improvement of the quality of educational facilities and instruction provided;

(4) transportation of students which creates serious risks to their health and safety, disrupts the educational process carried out with respect to such students, and impinges significantly on their educational opportunity, is excessive;

(5) the risks and harms created by excessive transportation are particularly great for children enrolled in the first six grades; and

(6) the guidelines provided by the courts for fashioning remedies to dismantle dual school systems have been, as the Supreme Court of the United States has said, "incomplete and imperfect," and have not established, a clear, rational, and uniform standard for determining the extent to which a local educational agency is required to reassign and transport its students in order to eliminate the vestiges of a dual school system.

**(b) Necessity of Congress to specify appropriate remedies for elimination of dual school systems**

For the foregoing reasons, it is necessary and proper that the Congress, pursuant to the powers granted to it by the Constitution of the United States, specify appropriate remedies for the elimination of the vestiges of dual school systems, except that the provisions of this chapter are not intended to modify or diminish the authority of the courts of the United States to enforce fully the fifth and fourteenth amendments to the Constitution of the United States.

(Pub. L. 93-380, title II, §203, Aug. 21, 1974, 88 Stat. 514.)

**PART 2—UNLAWFUL PRACTICES**

**PART REFERRED TO IN OTHER SECTIONS**

This part is referred to in section 1710 of this title.

**§ 1703. Denial of equal educational opportunity prohibited**

No State shall deny equal educational opportunity to an individual on account of his or her race, color, sex, or national origin, by—

(a) the deliberate segregation by an educational agency of students on the basis of race, color, or national origin among or within schools;

(b) the failure of an educational agency which has formerly practiced such deliberate

segregation to take affirmative steps, consistent with part 4 of this subchapter, to remove the vestiges of a dual school system;

(c) the assignment by an educational agency of a student to a school, other than the one closest to his or her place of residence within the school district in which he or she resides, if the assignment results in a greater degree of segregation of students on the basis of race, color, sex, or national origin among the schools of such agency than would result if such student were assigned to the school closest to his or her place of residence within the school district of such agency providing the appropriate grade level and type of education for such student;

(d) discrimination by an educational agency on the basis of race, color, or national origin in the employment, employment conditions, or assignment to schools of its faculty or staff, except to fulfill the purposes of subsection (f) below;

(e) the transfer by an educational agency, whether voluntary or otherwise, of a student from one school to another if the purpose and effect of such transfer is to increase segregation of students on the basis of race, color, or national origin among the schools of such agency; or

(f) the failure by an educational agency to take appropriate action to overcome language barriers that impede equal participation by its students in its instructional programs.

(Pub. L. 93-380, title II, §204, Aug. 21, 1974, 88 Stat. 515.)

**SECTION REFERRED TO IN OTHER SECTIONS**

This section is referred to in section 7402 of this title.

**§ 1704. Balance not required**

The failure of an educational agency to attain a balance, on the basis of race, color, sex, or national origin, of students among its schools shall not constitute a denial of equal educational opportunity, or equal protection of the laws.

(Pub. L. 93-380, title II, §205, Aug. 21, 1974, 88 Stat. 515.)

**§ 1705. Assignment on neighborhood basis not a denial of equal educational opportunity**

Subject to the other provisions of this subchapter, the assignment by an educational agency of a student to the school nearest his place of residence which provides the appropriate grade level and type of education for such student is not a denial of equal educational opportunity or of equal protection of the laws unless such assignment is for the purpose of segregating students on the basis of race, color, sex, or national origin, or the school to which such student is assigned was located on its site for the purpose of segregating students on such basis.

(Pub. L. 93-380, title II, §206, Aug. 21, 1974, 88 Stat. 515.)

## PART 3—ENFORCEMENT

**§ 1706. Civil actions by individuals denied equal educational opportunities or by Attorney General**

An individual denied an equal educational opportunity, as defined by this subchapter may institute a civil action in an appropriate district court of the United States against such parties, and for such relief, as may be appropriate. The Attorney General of the United States (hereinafter in this chapter referred to as the "Attorney General"), for or in the name of the United States, may also institute such a civil action on behalf of such an individual.

(Pub. L. 93-380, title II, §207, Aug. 21, 1974, 88 Stat. 516.)

## SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1708, 1709, 1710 of this title.

**§ 1707. Population changes without effect, per se, on school population changes**

When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, such school population changes so occurring shall not, per se, constitute a cause for civil action for a new plan of desegregation or for modification of the court approved plan.

(Pub. L. 93-380, title II, §208, Aug. 21, 1974, 88 Stat. 516.)

**§ 1708. Jurisdiction of district courts**

The appropriate district court of the United States shall have and exercise jurisdiction of proceedings instituted under section 1706 of this title.

(Pub. L. 93-380, title II, §209, Aug. 21, 1974, 88 Stat. 516.)

**§ 1709. Intervention by Attorney General**

Whenever a civil action is instituted under section 1706 of this title by an individual, the Attorney General may intervene in such action upon timely application.

(Pub. L. 93-380, title II, §210, Aug. 21, 1974, 88 Stat. 516.)

**§ 1710. Civil actions by Attorney General; notice of violations; certification respecting undertaking appropriate remedial action**

The Attorney General shall not institute a civil action under section 1706 of this title before he—

(a) gives to the appropriate educational agency notice of the condition or conditions which, in his judgment, constitute a violation of part 2 of this subchapter; and

(b) certifies to the appropriate district court of the United States that he is satisfied that such educational agency has not, within a rea-

sonable time after such notice, undertaken appropriate remedial action.

(Pub. L. 93-380, title II, §211, Aug. 21, 1974, 88 Stat. 516.)

## PART 4—REMEDIES

## PART REFERRED TO IN OTHER SECTIONS

This part is referred to in section 1703 of this title.

**§ 1712. Formulating remedies; applicability**

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, a court, department, or agency of the United States shall seek or impose only such remedies as are essential to correct particular denials of equal educational opportunity or equal protection of the laws.

(Pub. L. 93-380, title II, §213, Aug. 21, 1974, 88 Stat. 516.)

## SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1715 of this title.

**§ 1713. Priority of remedies**

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, which may involve directly or indirectly the transportation of students, a court, department, or agency of the United States shall consider and make specific findings on the efficacy in correcting such denial of the following remedies and shall require implementation of the first of the remedies set out below, or of the first combination thereof which would remedy such denial:

(a) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account school capacities and natural physical barriers;

(b) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account only school capacities;

(c) permitting students to transfer from a school in which a majority of the students are of their race, color, or national origin to a school in which a minority of the students are of their race, color, or national origin;

(d) the creation or revision of attendance zones or grade structures without requiring transportation beyond that described in section 1714 of this title;

(e) the construction of new schools or the closing of inferior schools;

(f) the construction or establishment of magnet schools; or

(g) the development and implementation of any other plan which is educationally sound and administratively feasible, subject to the provisions of sections 1714 and 1715 of this title.

(Pub. L. 93-380, title II, §214, Aug. 21, 1974, 88 Stat. 517.)

## SECTION REFERRED TO IN OTHER SECTIONS

**§ 1714. Transportation of students****(a) Limitation to school closest or next closest to place of residence**

No court, department, or agency of the United States shall, pursuant to section 1713 of this title, order the implementation of a plan that would require the transportation of any student to a school other than the school closest or next closest to his place of residence which provides the appropriate grade level and type of education for such student.

**(b) Health risks; impingement on educational process**

No court, department, or agency of the United States shall require directly or indirectly the transportation of any student if such transportation poses a risk to the health of such student or constitutes a significant impingement on the educational process with respect to such student.

**(c) School population changes resulting from population changes**

When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, no educational agency because of such shifts shall be required by any court, department, or agency of the United States to formulate, or implement any new desegregation plan, or modify or implement any modification of the court approved desegregation plan, which would require transportation of students to compensate wholly or in part for such shifts in school population so occurring.

(Pub. L. 93-380, title II, §215, Aug. 21, 1974, 88 Stat. 517.)

## SECTION REFERRED TO IN OTHER SECTIONS

**§ 1715. District lines**

In the formulation of remedies under section 1712 or 1713 of this title the lines drawn by a State, subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn for the purpose, and had the effect, of segregating children among public schools on the basis of race, color, sex, or national origin.

(Pub. L. 93-380, title II, §216, Aug. 21, 1974, 88 Stat. 518.)

## SECTION REFERRED TO IN OTHER SECTIONS

**§ 1716. Voluntary adoption of remedies**

Nothing in this subchapter prohibits an educational agency from proposing, adopting, requiring, or implementing any plan of desegregation, otherwise lawful, that is at variance with the standards set out in this subchapter nor shall any court, department, or agency of the

United States be prohibited from approving implementation of a plan which goes beyond what can be required under this subchapter, if such plan is voluntarily proposed by the appropriate educational agency.

(Pub. L. 93-380, title II, §217, Aug. 21, 1974, 88 Stat. 518.)

§ 2001. Congressional statement of findings

The Congress finds that—

because a high regard for the public trust and a lively exercise of political talents were outstanding characteristics of the thirty-third President of the United States;

because a special interest of the man from Independence in American history and a broad knowledge and understanding of the American political and economic system gained by study and experience in county and National Government culminated in the leadership of America remembered for the quality of his character, courage, and commonsense;

because of the desirability of encouraging young people to recognize and provide service in the highest and best traditions of the American political system at all levels of government, it is especially appropriate to honor former President Harry S Truman through the creation of a perpetual education scholarship program to develop increased opportunities for young Americans to prepare and pursue careers in public service.

the Secretary shall allot to each State for each fiscal year—

(A) an amount which bears the same ratio to 50 percent of the sums being allotted as the product of the population aged fifteen to nineteen inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States;

(B) an amount which bears the same ratio to 20 percent of the sums being allotted as the product of the population aged twenty to twenty-four, inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States;

(C) an amount which bears the same ratio to 15 percent of the sums being allotted as the product of the population aged twenty-five to sixty-five, inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States; and

(3)(A)(i) Notwithstanding any other provision of law and subject to clause (ii), for any fiscal year for programs authorized by subchapter II of this chapter or part B of subchapter III of this chapter, no State shall receive less than the payments made to the State for each such program for fiscal year 1985 under Public Laws 98-619 and 99-88. Amounts necessary for increasing such payments to States to comply with the preceding sentence shall be obtained by ratably reducing the amounts to be paid to other States, but no such amount shall be reduced to an amount which is less than the amount a State received under the Act<sup>1</sup> for each such program for fiscal year 1985.

(C) In the case of the Virgin Islands, the minimum allotment for all programs under this chapter shall not be less than \$200,000.

(ii) The amount calculated under this clause shall be determined by multiplying—

(I) the number of individuals in the State counted under paragraph (2) in the preceding fiscal year; by

(II) 150 percent of the national average per pupil payment made with funds available under this section for that year.

(iii) Notwithstanding the provisions of clauses (i) and (ii), no State shall be allotted an amount under this section in any fiscal year that is less than the amount such State is allotted in the fiscal year 1991.

#### (b) Reallotments

If the Secretary determines that any amount of any State's allotment under subsection (a) of this section for any fiscal year will not be required for such fiscal year for carrying out the program for which such amount has been allotted, the Secretary shall make such amount available for reallotment. Any such reallotment among other States shall occur on such dates during the same year as the Secretary shall fix, and shall be made on the basis of criteria established by regulation. No funds may be reallotted for any use other than the use for which they were appropriated. Any amount reallotted to a State under this subsection for any fiscal year shall remain available for obligation during the succeeding fiscal year and shall be deemed to be part of its allotment for the year in which it is obligated.

#### (c) Allotment ratios

(1) The allotment ratio for any State shall be 1.00 less the product of—

(2) The allotment ratios shall be promulgated by the Secretary for each fiscal year between October 1 and December 31 of the fiscal year preceding the fiscal year for which the determination is made. Allotment ratios shall be computed on the basis of the average of the appropriate per capita incomes for the three most re-

cent consecutive fiscal years for which satisfactory data are available.

(3) The term "per capita income" means, with respect to a fiscal year, the total personal income in the calendar year ending in such year, divided by the population of the area concerned in such year.

(4) For the purposes of this section, population shall be determined by the Secretary on the basis of the latest estimates available to the Department.

SUBPART 1—WITHIN-STATE ALLOCATION

**§ 2341. Distribution of funds to secondary school programs**

**(a) General rule**

Except as otherwise provided in this section and section 2341b of this title, each State shall distribute funds available in any fiscal year for secondary school vocational education programs to local educational agencies within the State as follows:

- (1) From 70 percent of such funds, each local educational agency shall be allocated an

amount that bears the same relationship to such 70 percent as the amount such local educational agency was allocated under section 1124 or such section's predecessor authority of the Elementary and Secondary Education Act of 1965 [20 U.S.C. 6333] in the preceding fiscal year bears to the total amount received under such section by local educational agencies in the State in such year.

(2) From 20 percent of such funds, each local educational agency shall be allocated an amount that bears the same relationship to such 20 percent as the number of students with handicaps who have individualized education programs under section 1414(a)(5) of this title served by such local educational agency in the preceding fiscal year bears to the total number of such students served by local educational agencies in the State in such year.

(3) From 10 percent of such funds, each local educational agency shall be allocated an amount that bears the same relationship to such 10 percent as the number of students enrolled in schools and adults enrolled in training programs under the jurisdiction of such local educational agency in the preceding fiscal year bears to the number of students enrolled in schools and adults enrolled in training programs under the jurisdiction of all local educational agencies in the State in such year.

**(b) Minimum grant amount**

(1) Except as provided in paragraph (2), no local educational agency shall be eligible for a grant under this part unless the amount allocated to such agency under subsection (a) of this section is not less than \$15,000. A local educational agency may enter into a consortium with other local educational agencies for purposes of meeting the minimum grant requirement of this paragraph.

(2) The State may waive the application of paragraph (1) in any case in which the local educational agency—

- (A) is located in a rural, sparsely-populated area; and
- (B) demonstrates that the agency is unable to enter into a consortium for purposes of providing services under this part.

(3) Any amounts which are not allocated by reason of paragraph (1) or paragraph (2) shall be redistributed to local educational agencies that meet the requirements of paragraph (1) or paragraph (2) in accordance with the provisions of this section.

**(c) Limited jurisdiction agencies**

(1) In applying the provisions of subsection (a) of this section, no State board receiving assistance under this chapter shall allocate funds to a local educational agency that serves only elementary schools, but shall distribute such funds to the local or regional educational agency which provides secondary school services to secondary school students in the same attendance area.

(2) The amount to be allocated under paragraph (1) to a local educational agency that has jurisdiction only over secondary schools shall be determined based on the number of students

that entered such secondary schools in the previous year from the elementary schools involved.

**(d) Allocations to area vocational education schools and intermediate educational agencies**

(1) The State shall distribute funds available for secondary school vocational education programs to the appropriate area vocational education school or intermediate educational agency in any case in which—

(A) the area vocational education school or intermediate educational agency and the local educational agency concerned—

(i) have formed or will form a consortium for the purpose of receiving funds under this section; or

(ii) have entered into or will enter into a cooperative arrangement for such purpose; and

(B)(i) the area vocational education school or intermediate educational agency serves an approximately equal or greater proportion of students with handicaps and students who are economically disadvantaged than the proportion of such students attending the secondary schools under the jurisdiction of all of the local educational agencies sending students to the area vocational education school or the intermediate educational agency; or

(ii) the area vocational education school, intermediate educational agency, or local educational agency demonstrates that it is unable to meet the criterion described in clause (i) due to the lack of interest by students described in clause (i) in attending vocational education programs in that area school or intermediate educational agency.

(2) If an area vocational education school or intermediate educational agency meets the requirements of paragraph (1), then—

(A) the amount that would otherwise be distributed to the local educational agency shall be allocated to the area vocational education school, the intermediate educational agency, and the local educational agency based on each school's or entity's relative share of students described in paragraph (1)(B)(i) who are attending vocational education programs that meet the requirements of section 2342 of this title (based, if practicable, on the average enrollment for the prior 3 years); or

(B) such amount may be allocated on the basis of an agreement between the local educational agency and the area vocational education school or intermediate educational agency.

(3)(A) For the purposes of this subsection, the State may determine the number of economically disadvantaged students attending vocational education programs on the basis of eligibility for any of the following:

(i) Free or reduced-price meals under the National School Lunch Act [42 U.S.C. 1751 et seq.].

(ii) The State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.].

(iii) Benefits under the Food Stamp Act of 1977 [7 U.S.C. 2011 et seq.].

(iv) Services under title I of the Elementary and Secondary Education Act of 1965 [20 U.S.C. 6301 et seq.].

(v) Other indices of economic status including estimates of such indices, if the State demonstrates to the satisfaction of the Secretary that such indices are more representative of such number.

(B) If a State elects to use more than 1 factor described in subparagraph (A) for purposes of making the determination described in such subparagraph, the State shall ensure that the data used is not duplicative.

(4) The State board shall establish an appeals procedure for resolution of any dispute arising between a local educational agency and an area vocational education school or an intermediate educational agency with respect to the allocation procedures described in this section, including the decision of a local educational agency to leave a consortium.

(5) Notwithstanding the provisions of paragraphs (1), (2), (3), and (4) any local educational agency receiving an allocation which is not sufficient to conduct a program which meets the requirements of section 2342(c) of this title is encouraged to—

(A) form a consortium or enter into a cooperative agreement with an area vocational education school or intermediate educational agency offering programs that meet the requirements of section 2342(c) of this title and that are accessible to economically disadvantaged students and students with handicaps served by such local educational agency; and

(B) transfer such allocation to the area vocational education school or intermediate educational agency.

## PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 2302, 2392 of this title.

**§ 2394. Findings and purpose****(a) Findings**

The Congress finds that—

(1) rapid technological advances and global economic competition demand increased levels of skilled technical education preparation and readiness on the part of youths entering the workforce;

(2) effective strategies reaching beyond the boundaries of traditional schooling are necessary to provide early and sustained intervention by parents, teachers, and educational institutions in the lives of students;

(3) a combination of nontraditional school-to-work technical education programs, using state-of-the-art equipment and appropriate technologies, will reduce the dropout rate for high school students in the United States and will produce youths who are mature, responsible, and motivated to build good lives for themselves;

<sup>2</sup> See References in Text note below.

(4) the establishment of systematic technical education articulation agreements between secondary schools and postsecondary educational institutions is necessary for providing youths with skills in the liberal and practical arts and in basic academics, including literacy instruction in the English language, and with the intense technical preparation necessary for finding a position in a changing workplace;

(5) by the year 2000 an estimated 15,000,000 manufacturing jobs will require more advanced technical skills, and an equal number of service jobs will become obsolete;

(6) more than 50 percent of jobs that are developing will require skills greater than those provided by existing educational programs;

(7) dropout rates in urban schools are 50 percent or higher, and more than 50 percent of all Hispanic youth drop out of high school; and

(8) employers in the United States pay an estimated \$210,000,000,000 annually for formal and informal training, remediation, and lost productivity as a result of untrained and unprepared youth joining, or attempting to join, the workforce of the United States.

**(b) Purpose**

It is the purpose of this part—

(1) to provide planning and demonstration grants to consortia of local educational agencies and postsecondary educational institutions, for the development and operation of 4-year programs designed to provide a tech-prep education program leading to a 2-year associate degree or a 2-year certificate; and

(2) to provide, in a systematic manner, strong, comprehensive links between secondary schools and postsecondary educational institutions.

## CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 1221, 5899, 6104 of this title.

## SUBCHAPTER I—GENERAL PROVISIONS

## § 3401. Congressional findings

The Congress finds that—

(1) education is fundamental to the development of individual citizens and the progress of the Nation;

(2) there is a continuing need to ensure equal access for all Americans to educational opportunities of a high quality, and such educational opportunities should not be denied because of race, creed, color, national origin, or sex;

(3) parents have the primary responsibility for the education of their children, and States, localities, and private institutions have the primary responsibility for supporting that parental role;

(4) in our Federal system, the primary public responsibility for education is reserved respectively to the States and the local school systems and other instrumentalities of the States;

(5) the American people benefit from a diversity of educational settings, including public and private schools, libraries, museums and other institutions, the workplace, the community, and the home;

(6) the importance of education is increasing as new technologies and alternative approaches to traditional education are considered, as society becomes more complex, and as equal opportunities in education and employment are promoted;

(7) there is a need for improvement in the management and coordination of Federal education programs to support more effectively State, local, and private institutions, students, and parents in carrying out their educational responsibilities;

(8) the dispersion of education programs across a large number of Federal agencies has led to fragmented, duplicative, and often inconsistent Federal policies relating to education;

(9) Presidential and public consideration of issues relating to Federal education programs is hindered by the present organizational position of education programs in the executive branch of the Government; and

(10) there is no single, full-time, Federal education official directly accountable to the President, the Congress, and the people.

(Pub. L. 96-88, title I, § 101, Oct. 17, 1979, 93 Stat. 669.)

## EFFECTIVE DATE

Section 601 of Pub. L. 96-88 provided that:

“(a) The provisions of this Act [see Short Title note below] shall take effect one hundred and eighty days after the first Secretary takes office, or on any earlier date on or after October 1, 1979, as the President may prescribe and publish in the Federal Register [prescribed as May 4, 1980, by Ex. Ord. No. 12212, formerly set out below], except that at any time on or after October 1, 1979—

“(1) any of the officers provided for in title II of this Act [subchapter II of this chapter] may be nominated and appointed, as provided in such title; and

“(2) the Secretary may promulgate regulations pursuant to section 505(b)(2) of this Act [section 3505(b)(2) of this title].

“(b) Funds available to any department or agency (or any official or component thereof), the functions or offices of which are transferred to the Secretary or the Department by this Act [see Short Title note below], may, with the approval of the Director of the Office of Management and Budget, be used to pay the compensation and expenses of any officer appointed pursuant to this title [this section and section 602 of Pub. L. 96-88 set out below] and other transitional and planning expenses associated with the establishment of the Department or transfer of functions or offices thereto until such time as funds for such purposes are otherwise available.”

### § 3402. Congressional declaration of purpose

The Congress declares that the establishment of a Department of Education is in the public interest, will promote the general welfare of the United States, will help ensure that education issues receive proper treatment at the Federal level, and will enable the Federal Government to coordinate its education activities more effectively. Therefore, the purposes of this chapter are—

(1) to strengthen the Federal commitment to ensuring access to equal educational opportunity for every individual;

(2) to supplement and complement the efforts of States, the local school systems and other instrumentalities of the States, the private sector, public and private educational institutions, public and private nonprofit educational research institutions, community-based organizations, parents, and students to improve the quality of education;

(3) to encourage the increased involvement of the public, parents, and students in Federal education programs;

(4) to promote improvements in the quality and usefulness of education through federally supported research, evaluation, and sharing of information;

(5) to improve the coordination of Federal education programs;

(6) to improve the management and efficiency of Federal education activities, especially with respect to the process, procedures, and administrative structures for the dispersal of Federal funds, as well as the reduction of unnecessary and duplicative burdens and constraints, including unnecessary paperwork, on the recipients of Federal funds; and

(7) to increase the accountability of Federal education programs to the President, the Congress, and the public.

(Pub. L. 96–88, title I, §102, Oct. 17, 1979, 93 Stat. 670.)

### § 3403. Relationship with States

It is the intention of the Congress in the establishment of the Department to protect the rights of State and local governments and public and private educational institutions in the areas of educational policies and administration of programs and to strengthen and improve the control of such governments and institutions

over their own educational programs and policies. The establishment of the Department of Education shall not increase the authority of the Federal Government over education or diminish the responsibility for education which is reserved to the States and the local school systems and other instrumentalities of the States.

#### (b) Curriculum, administration, and personnel; library resources

No provision of a program administered by the Secretary or by any other officer of the Department shall be construed to authorize the Secretary or any such officer to exercise any direction, supervision, or control over the curriculum, program of instruction, administration, or personnel of any educational institution, school, or school system, over any accrediting agency or association, or over the selection or content of library resources, textbooks, or other instructional materials by any educational institution or school system, except to the extent authorized by law.

#### (c) Funding under pre-existing programs

The Secretary shall not, during the period within eight months after May 4, 1980, take any action to withhold, suspend, or terminate funds under any program transferred by this chapter by reason of the failure of any State to comply with any applicable law requiring the administration of such a program through a single organizational unit.

Ex. Ord. No. 12900, Feb. 22, 1994, 59 F.R. 9061, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to advance the development of human potential, to strengthen the Nation's capacity to provide high-quality education, and to increase opportunities for Hispanic Americans to participate in and benefit from Federal education programs, it is hereby ordered as follows:

SECTION 1. There shall be established in the Department of Education the President's Advisory Commission on Educational Excellence for Hispanic Americans (Commission). The Commission shall consist of not more than 25 members, who shall be appointed by the President and shall report to the Secretary of Education (Secretary). The Commission shall comprise representatives who: (a) have a history of involvement with the Hispanic community; (b) are from the education, civil rights, and business communities; or (c) are from civic associations representing the diversity within the Hispanic community. In addition, the President may appoint other representatives as he deems appropriate.

SEC. 2. The Commission shall provide advice to the President and the Secretary on: (a) the progress of Hispanic Americans toward achievement of the National Education Goals and other standards of educational accomplishment; (b) the development, monitoring, and coordination of Federal efforts to promote high-quality education for Hispanic Americans; (c) ways to increase State, private sector, and community involvement in improving education; and (d) ways to expand and complement Federal education initiatives. The Commission shall provide advice to the President through the Secretary.

SEC. 3. There shall be established in the Department of Education the White House Initiative on Educational Excellence for Hispanic Americans (Initiative). The Initiative shall be an interagency working group coordinated by the Department of Education and shall be headed by a Director, who shall be a senior level Federal official. It shall provide the staff, resources, and assistance for the Commission and shall serve the Secretary in carrying out his or her responsibilities under this order. The Initiative is authorized to utilize the services, personnel, information, and facilities of other Federal, State, and local agencies with their consent, and with or without reimbursement, consistent with applicable law. To the extent permitted by law and regulations, each Federal agency shall cooperate in providing resources, including personnel detailed to the Initiative, to meet the objectives of this order. The Initiative shall include both career civil service and appointed staff with expertise in the area of education, and shall provide advice to the Secretary on the implementation and coordination of education and related programs across Executive agencies.

SEC. 4. Each Executive department and each agency designated by the Secretary shall appoint a senior official, who is a full-time officer of the Federal Government and responsible for management or program administration, to report directly to the agency head on activity under this Executive order and to serve as liaison to the Commission and the Initiative. To the extent permitted by law and to the extent practicable, each Executive department and designated agency shall provide any appropriate information requested by the Commission or the staff of the Initiative, including data relating to the eligibility for and participation by Hispanic Americans in Federal education programs and the progress of Hispanic Americans in relation to the National Education Goals. Where adequate data is not available, the Commission shall suggest the means of collecting the data.

SEC. 5. The Secretary, in consultation with the Commission, shall submit to the President an Annual Federal Plan to Promote Hispanic American Educational Excellence (Annual Federal Plan, or Plan). All actions described in the Plan shall be designed to help Hispanic Americans attain the educational improvement targets set forth in the National Education Goals and any standards established by the National Education Standards and Improvement Council. This Plan also shall include, as an appendix, the text of the agency plans described in section 6 of this order. The Secretary, in consultation with the Commission and with the assistance of the Initiative staff, shall ensure that superintendents of Hispanic-serving school districts, presidents of Hispanic-serving institutions of higher education, directors of educational programs for Hispanic Americans, and other appropriate individuals are given the opportunity to comment on the proposed Annual Federal Plan. For purposes of this order, a "Hispanic-serving" school district or institution of higher education is any local education agency or institution of higher education, respectively, whose student population is more than 25 percent Hispanic.

SEC. 6. As part of the development of the Annual Federal Plan, each Executive department and each designated agency (hereinafter in this section referred to collectively as "agency") shall prepare a plan for, and shall document, both that agency's effort to increase Hispanic American participation in Federal education programs where Hispanic Americans currently are underserved, and that agency's effort to improve educational outcomes for Hispanic Americans participating in Federal education programs. This plan shall address, among other relevant issues: (a) the elimination of unintended regulatory barriers to Hispanic American participation in Federal education programs; (b) the adequacy of announcements of program opportunities of interest to Hispanic-serving school districts, institutions of higher education, and agencies; and (c) ways of eliminating educational inequalities and disadvantages faced by Hispanic Americans. It also shall emphasize the facilitation of technical, planning, and development advice to Hispanic-serving school districts and institutions of higher education. Each agency's plan shall provide appropriate measurable objectives for proposed actions aimed at increasing Hispanic American participation in Federal education programs where Hispanic Americans currently are underserved. After the first year, each agency's plan also shall assess that agency's performance on the goals set in the previous year's annual plan. These plans shall be submitted by a date and time to be established by the Secretary.

SEC. 7. The Director of the Office of Personnel Management, in consultation with the Secretary and the Secretary of Labor, to the extent permitted by law, shall develop a program to promote recruitment of Hispanic students for part-time, summer, and permanent positions in the Federal Government.

SEC. 8. I have determined that the Commission shall be established in compliance with the Federal Advisory

Committee Act, as amended (5 U.S.C. App.). Notwithstanding any other Executive order, the responsibilities of the President under the Federal Advisory Committee Act, as amended, shall be performed by the Secretary, in accordance with the guidelines and procedures established by the Administrator of General Services.

#### CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 3489 of this title.

### § 3601. Congressional statement of findings and purposes

(a) The Congress finds that—

(1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and other severe or fatal diseases, such as asbestosis;

(2) medical evidence has suggested that children may be particularly vulnerable to environmentally induced cancers;

(3) medical science has not established any minimum level of exposure to asbestos fibers which is considered to be safe to individuals exposed to the fibers;

(4) substantial amounts of asbestos, particularly in sprayed form, have been used in school buildings, especially during the period 1946 through 1972;

(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air, and (B) asbestos concentrations far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;

(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;

(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for identifying hazardous conditions in schools or for remedying those conditions;

(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;

(9) without an improved program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be

able to mitigate the potential asbestos hazards in their schools; and

(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this chapter to identify and mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) It is the purpose of this chapter to—

(1) direct the Secretary of Education to establish a task force to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;

(2) require States receiving administrative funds for any applicable program (as defined under section 1221(c)(1)(A)<sup>1</sup> of this title) to prepare a plan describing the manner in which information relating to programs established under this chapter shall be distributed to local educational agencies;

(3) provide scientific, technical, and financial assistance to State educational agencies and local educational agencies to enable them to conduct an asbestos detection program to identify asbestos hazards in schools;

(4) provide loans to local educational agencies for the mitigation of asbestos hazards which constitute an imminent hazard to the health and safety of school children and employees; and

(5) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

(Pub. L. 96-270, § 2, June 14, 1980, 94 Stat. 487.)

**(c) Compensation; travel expenses**

(1) Members of the Task Force who are not full-time officers or employees of the Federal Government shall receive compensation at a rate determined by the Secretary, but not to exceed the daily equivalent of the maximum annual rate of pay in effect for grade GS-16 of the General Schedule, for each day (including traveltime) during which they are engaged in the performance of the duties of the Task Force.

(2) While away from their homes or regular places of business in the performance of the duties of the Task Force, all members of the Task Force shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703 of title 5.

(B) the means of identifying, sampling, and testing materials suspected of emitting asbestos fibers;

(2) the distribution of the information described in paragraph (1) (in any appropriate form such as pamphlets, reports, or instructions) to State educational agencies and to local educational agencies for the purpose of assisting such agencies in carrying out activities described in this chapter;

(3) the review of applications for grants and loans under sections 3604 and 3605 of this title, and the submission to the Secretary of recommendations respecting the approval or disapproval of such applications;

(4) the review of any guidelines established by the Environmental Protection Agency for identifying those schools in which exposure to asbestos fibers constitutes a health problem and for taking appropriate corrective actions at such schools, in order to determine whether any modifications of such guidelines should be recommended to the Secretary under paragraph (5); and

(5) providing the Secretary with assistance in formulating standards and procedures under section 3606 of this title by—

(A) submitting to the Secretary relevant information concerning the results of the review made under paragraph (4) of this subsection; and

(B) recommending such modifications to the guidelines referred to in such paragraph as the Task Force considers appropriate.

In carrying out its duties under this subsection, the Task Force shall avoid, to the maximum extent practicable, duplicating similar activities undertaken by the Environmental Protection Agency.

**(f) Termination**

The Task Force shall cease to exist at the end of the 180-day period beginning on the date that the authority of the Secretary to make loans under section 3605 of this title has expired.

Grants may be made under this section only during the two-year period beginning on June 14, 1980.

(B) The Secretary may make grants to State educational agencies for the Federal share of the costs of carrying out any asbestos detection program if—

(1) No grant may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force. The Secretary may not approve an application unless the application—

(A) contains a description of the methods to be used by the local educational agency, or in the case of an application by the State educational agency the methods to be used by the local educational agencies receiving grants from the State, to determine whether hazardous concentrations of asbestos fibers or materials emitting such fibers exist in school buildings under the jurisdiction of such agency;

(B) contains an estimate of the total cost of the detection program, including such detailed descriptions of the costs of each component of the program as the Secretary may require;

(E) contains such other information or assurances as the Secretary may require.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No grant may be awarded by the Secretary under this section for asbestos hazards detection programs conducted before June 14, 1980, unless the applicant has submitted an application to the Secretary—

No grant may be awarded under this section for any asbestos hazards detection program completed before January 1, 1976.

(4) After reviewing the application submitted under this section, together with any recommendations made by the Task Force, the Secretary shall determine the amount of any grant to be awarded under this section. **(c) Reporting requirements for recipients**

Local and State educational agencies receiving grants under this section shall file a report with the Secretary, not later than 120 days after the award of such grant, describing the detection activities which were undertaken, the results of the asbestos detection program, and plans for mitigating any imminent hazards which were detected by the testing. The report shall include a detailed accounting of the funds used to carry out the detection program.

**(d) Availability of appropriated funds for education and technical assistance programs**

During the period in which grants may be made under this section, not more than 20 percent of the funds appropriated to carry out this section may be made available by the Secretary to the Task Force to conduct education and technical assistance programs related to the detection of asbestos hazards in school buildings and the implementation of appropriate actions to mitigate such hazards.

## CROSS REFERENCES

Detection and control of asbestos hazards in schools, see section 3601 et seq. of this title.

## SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in title 15 section 2646.

**§ 4011. Findings and purpose****(a) Findings**

The Congress finds that—

(1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and other severe or fatal diseases, such as asbestosis;

(2) medical evidence has suggested that children may be particularly vulnerable to environmentally induced cancers;

(3) medical science has not established any minimum level of exposure to asbestos fibers which is considered to be safe to individuals exposed to the fibers;

(4) substantial amounts of asbestos, particularly in sprayed form, have been used in school buildings, especially during the period 1946 through 1972;

(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fi-

bers to be dislodged into the air, and (B) asbestos concentration far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;

(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;

(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for remedying hazardous conditions in schools;

(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;

(9) without a program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and

(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this subchapter to mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

#### (b) Purpose

It is the purpose of this subchapter to—

(1) direct the Administrator of the Environmental Protection Agency to establish a program to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;

(2) provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos hazards in schools;

(3) provide financial assistance for the abatement of asbestos threats to the health and safety of school children or employees; and

(4) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

(Pub. L. 98-377, title V, §502, Aug. 11, 1984, 98 Stat. 1287; Pub. L. 101-637, §14(a)(2), (b)(1), (2), Nov. 28, 1990, 104 Stat. 4594, 4595.)

#### AMENDMENTS

1990—Pub. L. 101-637, §14(a)(2), made technical amendment to section catchline.

Subsecs. (a), (b). Pub. L. 101-637, §14(b)(1), (2), inserted headings.

#### SHORT TITLE OF 1990 AMENDMENT

Section 1 of Pub. L. 101-637 provided that: “This Act [enacting section 2656 of Title 15, Commerce and Trade, amending this section, sections 4012 to 4022 of this title, and sections 2643, 2646, and 2647 of Title 15, enacting provisions set out as notes under this section and sec-

tions 2646 and 2656 of Title 15, and amending provisions set out as a note under this section] may be cited as the ‘Asbestos School Hazard Abatement Reauthorization Act of 1990.’”

#### SHORT TITLE

Section 501 of title V of Pub. L. 98-377, as amended by Pub. L. 101-637, §14(a)(1), Nov. 28, 1990, 104 Stat. 4594, provided that: “This title [enacting this subchapter] may be cited as the ‘Asbestos School Hazard Abatement Act of 1984.’”

#### FINDINGS AND PURPOSES

Section 2 of Pub. L. 101-637 provided that:

“(a) FINDINGS.—Congress finds the following:

“(1) The Environmental Protection Agency has estimated that more than forty-four thousand school buildings contain friable asbestos, exposing more than fifteen million school children and one million five hundred thousand school employees to unwarranted health hazards.

“(2) All elementary and secondary schools are required by the Asbestos Hazard Emergency Response Act [of 1986, see Short Title of 1986 Amendment note set out under section 2601 of Title 15, Commerce and Trade] to inspect for asbestos, develop an asbestos management plan, and implement such plan.

“(3) The Environmental Protection Agency has estimated it will cost local education agencies more than \$3,000,000,000 to comply with the Asbestos Hazard Emergency Response Act.

“(4) Without a continuing program of information assistance, technical and scientific assistance, training, and financial support, many local educational agencies will be unable to carry out sufficient response actions to prevent the release of asbestos fibers into the air.

“(5) Without the provisions of sufficient financial support, the cost to local educational agencies of implementing asbestos response actions may have an adverse impact in their educational mission.

“(6) The effective regulation of interstate commerce for the protection of human health and the environment requires the continuation of programs to mitigate hazards of asbestos fibers and materials emitting such fibers.

“(b) PURPOSES.—The purposes of this Act [see Short Title of 1990 Amendment note above] are the following:

“(1) To direct the Environmental Protection Agency to maintain a program to assist local schools in carrying out their responsibilities under the Asbestos Hazard Emergency Response Act.

“(2) To provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos health hazards.

“(3) To provide financial assistance to State and local agencies for training of persons involved with inspections and abatement of asbestos, for conducting necessary reinspections of school buildings, and for the actual abatement of asbestos threats to the health and safety of school children or employees.

“(4) To assure that no employee of a local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.”

#### § 4012. Asbestos hazard abatement program

##### (a) Abatement program

There is hereby established a program within the Environmental Protection Agency to be known as the Asbestos Hazards Abatement Program (hereinafter in this subchapter referred to as “Program”).

#### § 4401. Findings

The Congress finds that—

(1) Indian art and culture and Native Hawaiian art and culture have contributed greatly to the artistic and cultural richness of the Nation;

(2) Indian art and culture and Native Hawaiian art and culture occupy a unique position in American history as being our only native art form and cultural heritage;

(3) the enhancement and preservation of this Nation's native art and culture has a fundamental positive influence on the American people;

(4) although the encouragement and support of Indian and Native Hawaiian arts and crafts are primarily a matter for private, local, and Indian and Native Hawaiian initiative, it is also an appropriate matter of concern to the Federal Government;

(5) it is appropriate and necessary for the Federal Government to support research and scholarship in Indian art and culture and Native Hawaiian art and culture and to complement programs for the advancement of such art and culture by tribal, private, and public agencies and organizations;

(6) current Federal initiatives in the area of Indian art and culture and Native Hawaiian art and culture are fragmented and inadequate; and

(7) in order to coordinate the Federal Government's effort to preserve, support, revitalize, and disseminate Indian art and culture and Native Hawaiian art and culture, it is desirable to establish—

(A) a national Institute of American Indian and Alaska Native Culture and Arts Development, and

(B) a program for Native Hawaiian culture and arts development.

(C) If at any time the Institute withdraws any capital contribution (as described in subparagraph (B)(i)) made by the Institute to the trust fund referred to in subparagraph (A) or puts any property (as described in subparagraph (B)(ii)) to a use which is not for the sole benefit of the Institute, an amount equal to the value of the Federal contribution shall be withdrawn from such trust fund and returned to the Treasury as miscellaneous receipts.

(2) Interest deposited into the trust fund pursuant to paragraph (1)(B)(ii) may be periodically withdrawn and used, at the direction of the Board or its designee, to defray any expense associated with the operation of the Institute, including the expense of operations and maintenance, administration, academic and support personnel, community and student services programs, and technical assistance.

(3) For the purpose of complying with the contribution requirement of paragraph (1)(B), the Institute may use funds or in-kind contributions of real or personal property fairly valued which are made available from any private or tribal source, including interest earned by the funds invested under this subsection. For purposes of this paragraph, all contributions, including in-kind and real estate, which are on-hand as of November 29, 1990 and which have been received after June 2, 1988, but which have not been included in computations under this provision shall be eligible for matching with Federal funds appropriated in any fiscal year. All funds transferred to the Institute by the Secretary of the Treasury after June 2, 1988, shall be deemed to have been properly transferred as of July 23, 1992.

(4) Amounts appropriated under section 4451(a) of this title for use under this subsection shall be paid by the Secretary of the Treasury to the Institute as a Federal capital contribution equal to the amount of funds or the value of the in-kind contributions which the Institute demonstrates have been placed within the control of, or irrevocably committed to the use of, the Institute as a capital contribution of the Institute in accordance with this subsection.

**(b) Capital improvement endowment**

(2) The President of the Institute shall provide for the deposit into the capital endowment fund of a capital contribution by the Institute in an amount equal to the amount of each Federal contribution and any earnings on amounts in the capital endowment fund.

If at any time the Institute withdraws any capital contribution to the capital endowment fund before the funds have been deposited for this two-year period, an equal amount of the Federal contribution shall be withdrawn from the capital endowment fund and returned to the Treasury as miscellaneous receipts. At the end of the two-year period, the entire principal and interest of the funds deposited for this period, including the Federal matching portion, shall accrue, without reservation, to the Institute and may be withdrawn, in whole or in part, to defray expenses associated with capital acquisition and improvement of the Institute referred to in paragraph (1).

(4) For the purpose of complying with the contribution requirement of paragraph (2), the Institute may use funds which are available from any private, non-Federal governmental, or tribal source.

(5) Subject to paragraph (3), amounts appropriated under section 4451(a) of this title for use under this subsection shall be paid by the Secretary of the Treasury to the Institute as a Federal capital contribution equal to the amount which the Institute demonstrates has been placed within the control of, or irrevocably committed to the use of, the Institute and is available for deposit as a capital contribution of the Institute in accordance with this subsection.

(6) For the purpose of complying with the contribution requirement in this subsection, the Institute may use funds or in-kind contributions of real or personal property. For the purposes of this paragraph, all contributions, in-kind and real estate, which are held by the Institute beginning on November 29, 1990, and which were received after June 2, 1988, but which have not been included in their entirety in computations under this section shall be eligible for matching Federal funds appropriated in any year.

**(c) General administrative provisions**

### § 5501. Findings and policy

#### (a) Findings

The Congress finds that—

(1) Threats to human health and environmental quality are increasingly complex, involving a wide range of conventional and toxic contaminants in the air and water and on the land.

(2) There is growing evidence of international environmental problems, such as global warming, ocean pollution, and declines in species diversity, and that these problems pose serious threats to human health and the environment on a global scale.

(3) Environmental problems represent as significant a threat to the quality of life and the economic vitality of urban areas as they do the natural balance of rural areas.

(4) Effective response to complex environmental problems requires understanding of the

natural and built environment, awareness of environmental problems and their origins (including those in urban areas), and the skills to solve these problems.

(5) Development of effective solutions to environmental problems and effective implementation of environmental programs requires a well educated and trained, professional work force.

(6) Current Federal efforts to inform and educate the public concerning the natural and built environment and environmental problems are not adequate.

(7) Existing Federal support for development and training of professionals in environmental fields is not sufficient.

(8) The Federal Government, acting through the Environmental Protection Agency, should work with local education institutions, State education agencies, not-for-profit educational and environmental organizations, noncommercial educational broadcasting entities, and private sector interests to support development of curricula, special projects, and other activities, to increase understanding of the natural and built environment and to improve awareness of environmental problems.

(9) The Federal Government, acting through the coordinated efforts of its agencies and with the leadership of the Environmental Protection Agency, should work with local education institutions, State education agencies, not-for-profit educational and environmental organizations, noncommercial educational broadcasting entities, and private sector interests to develop programs to provide increased emphasis and financial resources for the purpose of attracting students into environmental engineering and assisting them in pursuing the programs to complete the advanced technical education required to provide effective problem solving capabilities for complex environmental issues.

(10) Federal natural resource agencies such as the United States Forest Service have a wide range of environmental expertise and a long history of cooperation with educational institutions and technology transfer that can assist in furthering the purposes of the<sup>1</sup> chapter.

#### (b) Policy

It is the policy of the United States to establish and support a program of education on the environment, for students and personnel working with students, through activities in schools, institutions of higher education, and related educational activities, and to encourage postsecondary students to pursue careers related to the environment.
